In a recent letter we broached the idea of a reunion and asked for names to
be added to our mailing list. The response was not only gratifying, but
also has encouraged us to continue our efforts to hold such a reunion.

Who are we? The WFO reunion committee currently consists of Bart Bias, Al
Carter. Roy Carlson, and Mike Long. The idea for a reunion began when the
four of us met recently in San Francisco and began asking each other
"Whatever happened to ........?". Even though we had kept in touch over
the years, other ex-WFO'ers were mentioned that none of us knew the
whereabouts of.

We discussed the possibility of a reunion and the prospect of seeing old
friends again after so many years. Since one of us (Mike) has a computer,
we agreed that he would compile a list of names and addresses. If nothing
else came of it, at least we could update our Christmas mailing lists.

Finally, the interest in holding such a reunion increased as a result of a
trial mailing to those ex-WFO'rs that we knew. The response was such that
our list of names has more than doubled. Many suggestions were made and
many questions asked. At this time we are enclosing a questionnaire with
an updated mailing list. This venture is on a non-profit basis, however
the mailing and supply cost is mounting; therefore we request a donation of
$5 to defray costs. This will ensure your inclusion in further mailings
and give us some assurance of the feasibility of continuing the venture.
Make check out to Mike Long.

We will publish an updated list and newsletter, assuming sufficient
interest and support. about every 3 months. Please send us any additional
names or corrections you have to our mailing list.

PERSONNEL NOTES

Your contributions will expand this column.

Bart Bias is currently working at the Bank of America as a Programming Manager.

Mike Long is a Senior Analyst at EDP Audit Controls, Inc; an Oakland CA firm specializing in computer security and risk analysis. Mike also has his own business, whose computer we are using, that exports business applications software to Europe; he will be in England during the month of October pursuing this venture.

Roy Carlson recently relocated to Phoenix, Arizona to take a position with Motorola as Product Manager for the 68000 micro-processor.

Al Carter has his own computer business, American Calapine, Inc. that is the American subsidiary of a British firm. He also markets a successful software package for small newspapers that he wrote and his wife Sumi sells real estate.
